

Q2 2006

OUR TOP FIVE CORPORATE JURISDICTIONS

Healy Consultants' most popular incorporation jurisdictions are currently Singapore, Hong Kong, Dubai, Ireland and Cyprus. It came as little surprise, then, when the Switzerland-based International Institute for Management Development released its 2006 World Competitiveness Scorecard recently. The scorecard (see [here](#)) had Hong Kong, Singapore and Ireland in 2nd, 3rd and 11th places respectively.

SLEEPING LATIN GIANTS AWAKEN

South American economies are waking from decades of mismanagement and political turmoil to register healthy GDP growth rates. While regional governments provide investment incentives, international entrepreneurs realise the potential in Argentina, Brazil, Ecuador and Peru. DEDICATION, THAT'S WHAT YOU NEED

Healy Consultants now offers first class website and e-mail hosting services via its own dedicated server in Singapore. The new server offers a host of benefits not seen with shared servers - superior performance, high levels of security and excellent technical support. For more information on our range of IT services, please visit our business [website](#).

AN OFFICE AWAY FROM THE OFFICE

Imagine this: your company has access to a fully-functioning office in Asia without any of the costs and hassle of appointing local staff and monthly rentals. A place you can use as a business base for meetings with important clients when you're in Asia. Healy Consultants' Virtual Office services are more than just an impersonal phone answering and mail forwarding service. For a quotation on our Virtual Office services, please [contact us](#).

HEALY CONSULTANTS' MIGRATION SUCCESS CONTINUES

As well as obtaining employment and entrepreneur visas, Healy Consultants' is successful obtaining Singapore Permanent Residence visas for our Clients. In June 2006, one of our India clients was awarded Permanent Residence (PR) in Singapore. The successful application was the culmination of a three month process. Our client is now free to live in Singapore indefinitely. Click [here](#) to see how we have helped some key clients achieve their ambition to live in Asia.

BAHAMAS BOWING TO PRIVACY PRESSURES

A report in June by the Organisation for Economic Cooperation and Development (OECD) praised the Bahamas for stepping up efforts to exchange tax information, further undermining the Caribbean's waning reputation for strong client confidentiality. See a related article on the Bahamas issue [here](#).

GET A CLOSER LOOK AT ASIA.....

Whether you are moving to Asia to work, or are simply conducting some background research with a view to starting a business in the region, knowing the ins and outs of each city is invaluable. Using reliable relocation agents in Singapore, Hong Kong and Dubai, Healy Consultants provides tailored conducted tours of major points of business and leisure interest in these cities, saving you valuable time on the ground. For more information on these services, please [contact us](#).

.....OR GET US TO DO THE GROUND WORK FOR YOU

Feasibility studies, cashflow projections, market research ... if you need to get accurate information on specific markets for your business, then Healy Consultants wants to help you. Drawing upon our excellent business network in Asia Pacific, the Middle East and Europe, we are able to provide accurate and excellent results.

FURTHER CONFIRMATION! SINGAPORE BANKING TO GROW

In June, Healy Consultants' Marketing and Media Director Mark Lazell wrote in various publications about the increased flow of capital from Europe to Asia (see the article by clicking [here](#)). Now, according to a report in the *International Herald Tribune*, Singapore's private banking sector is expected to grow by 25% in the next year, more than anywhere else in the world, further proof that the global focus is shifting to Asia. THUMBS UP FOR TRUSTS DOWN UNDER

The New Zealand Trust is an excellent vehicle to hold assets, and Healy Consultants is seeing a number of fresh enquiries for this type of entity. A New Zealand Trust is quick to set up, is confidential, and provides for greater control of assets than alternative jurisdictions. It is also tax-free in New Zealand provided the Settlor is non-resident and the Trust sources income outside New Zealand.
