

How to copy/paste content from our website when it is locked?

CAUTION

The content shown on this website may not be the latest.

Before copy/pasting content by following the steps below, make sure you are copying pasting the latest content by comparing content shown on this page with the original content on our actual site.

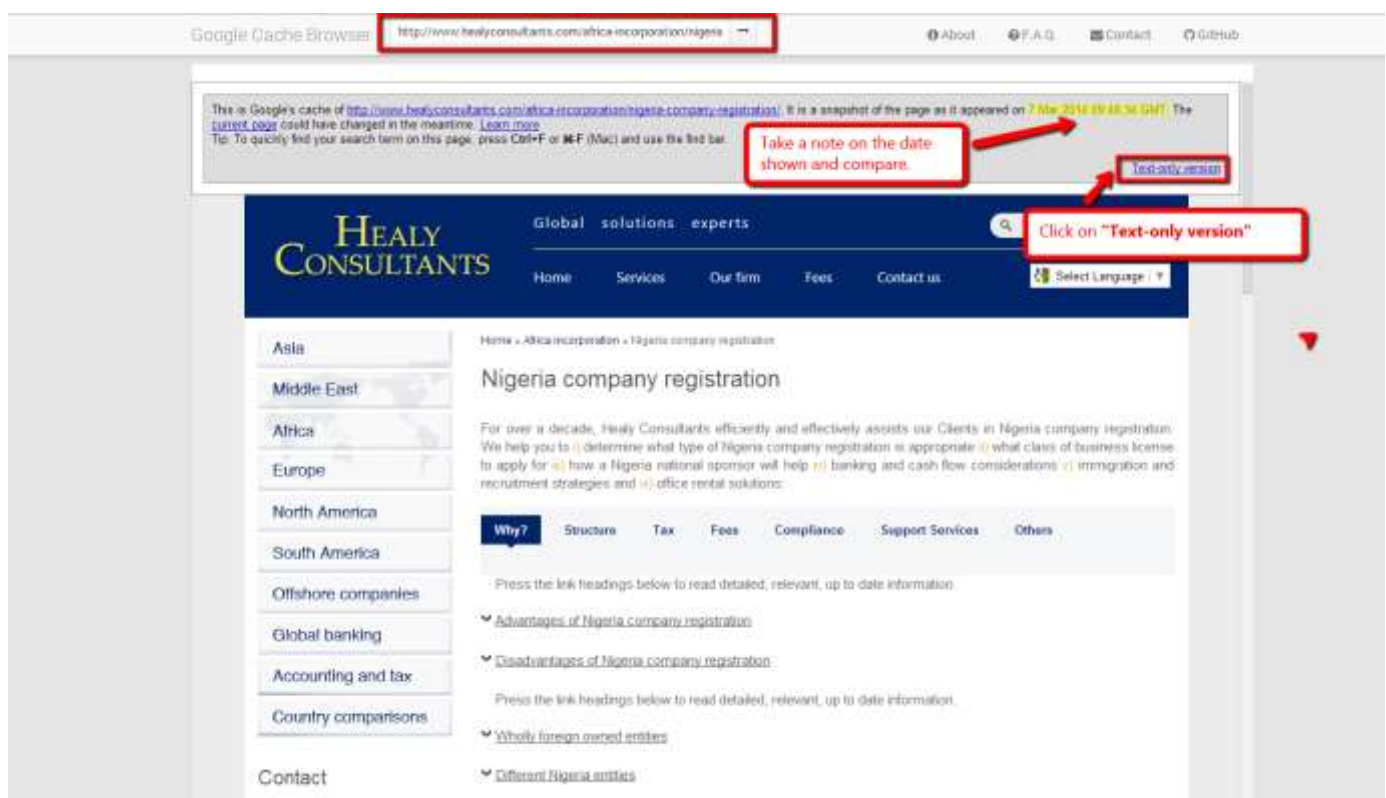

Step 01:

- Go to <http://www.cachedpages.com/>
 - If this website doesn't work **please Google "Google cached pages" if this website is not working.**
No time to Google? Let me Google that for you (press the link) - <http://bit.ly/1qdy86C>
- Copy/paste the Healy consultants' webpage url onto the type-area "Enter URL"

Step 02:

- Take a note of the date mentioned and compare the content with the original page.
- On the top right side, click on "Text-only version"

Step 03

- Like usual, right-click to copy content from the site

Press the link headings below to read detailed, relevant, up to date information:

Advantages of Nigeria company registration

Tax exemption through Export Processing Zones

1. Nigeria boasts 25 [Export Processing Zones \(EPZ\)](#), offering foreign companies i) a tax holiday on all taxes including federal, state, and local government taxes ii) duty free importation iii) 100% repatriation of capital, profits, and dividends;
2. Nigeria company registration is simplified for EPZ companies. These companies are exempt from all import and export licensing and all expatriate quotas, and one-stop approval is available for permits, operating licenses, and incorporation;
3. Companies incorporated in a Nigerian EPZ are allowed to sell 100% of their goods into the domestic Nigerian market, while paying a significantly reduced import duty on manufactured goods sold domestically;
4. Land is rent-free for the first 6 months, for any construction project undertaken in the EPZ.
