Cayman Islands Class 'B' Insurer's License Invoice

4. Healy Consultants Group PLC will secure approval from the <u>Cayman Islands Monetary Authority</u> (CIMA) for a <u>Class "B" Insurer's License</u> including i) preparing and pre-filling the Class B insurer's application forms for our Client signature; ii) advising our Client regarding regulatory documentation required by CIMA; iii) submitting a complete quality application to CIMA and iv) aggressively negotiating with the CIMA to secure its timely approval for the application, while minimizing extra documentation request from the Cayman Islands authorities. The average licensing timeframe is 4 months from the submission of a quality licensing application. Healy Consultants Group PLC will aggressively negotiate for a shorter timeframe;

All going well, I expect there is a 70% probability that CIMA will approve a license. However, CIMA enjoys ultimate power of approval of licensing exemption applications. Consequently, guaranteed success is outside of Healy Consultants Group PLC' control. What is inside our control is the preparation and submission of a high-quality application for licensing application that maximizes the likelihood of approval. As you can appreciate, it is a difficult task to obtain approval from CIMA for a newly-formed company, when the entity's shareholders and directors and bank signatories reside overseas:

During the review of the application, there is a 60% probability CIMA will request submission of i) a detailed business plan ii) AML/CFT program and privacy policies iii) a technology risk management program iv) refund, rebates and other terms and conditions v) a Group Chart to identify beneficial ownership vi) an Organizational Chart for the Cayman Islands entity vii) a risk management program viii) proof of net worth from the shareholders or equivalent document showing the availability of capital (certified by the bank) ix) financial projections for 3 years x) audited financial statements of our Client's existing business for the 3 past years and xi) other documents required to operate a Class B insurer's business. If our Client requires Healy Consultants Group PLC to draft these documents, additional fees will apply;

The license application must also provide a police clearance certificate (or an affidavit attesting that there have been no convictions), a resume and references for each director and officer, which demonstrate that they have sufficient insurance experience. Details of the independent auditors must also be submitted.

Depending on the nationality of our Client, the profile of his customers and the nature of his business model, there is a 40% probability CIMA will revert to require the business to appoint 2 qualified directors, at least one of whom is a Cayman Islands resident. All directors must also have work experience and education commensurate with the expected trading activities and volume of the business:

The minimum capital requirement (MCR) and prescribed capital requirement (PCR) for a Class 'B' licence are detailed in the <u>Insurance Regulations</u> as follows:

Class of Insurance	Minimum Capital Requirement ("MCR")	Prescribed Capital Requirement ("PCR")
	General: US\$100,000	General: US\$100,000
Class B(i)	Long-term: US\$200,000	Long-term: US\$200,000
	Composite: US\$300,000	Composite: US\$300,000

Skype id healyconsultants

Email email@healyconsultants.com
Website www.healyconsultants.com

Cayman Islands Class 'B' Insurer's License Invoice

Class B(ii)	General: US\$150,000	General: 10% of Net Earned Premium (NEP) to first US\$5 million; 5% of additional NEP up to US\$20 million; 2.5% of additional NEP in excess of US\$20 million	
	Long-term: US\$300,000	Long-term: US\$300,000	
	Composite: US\$450,000	Composite: amount required to support the general business plus MCR	
Class B(iii)	General: US\$200,000	General: 15% of NEP to first US\$5 million 7.5% of additional NEP up to US\$20,000,000 5% of additional NEP in excess of US\$20 million	
	Long-term: US\$400,000	Long-term: US\$400,000	
	Composite: US\$600,000	Composite: amount required to support the general business plus MCR	

There is a 20% probability, that notwithstanding the minimum capital requirements, CIMA may set an enhanced prescribed capital requirement in respect of any insurer. CIMA may also, for class B, exclude from the calculations assets that it deems inappropriate.

Class B insurers are required to keep solvency equal to or in excess of the total prescribed capital requirement. Where the capital of an insurer falls below the prescribed capital requirement but is greater than the minimum capital requirement, such insurer must present a remedial action plan to CIMA. Where the capital of an insurer falls below the minimum capital requirement, CIMA may consider regulatory action.

Every class B insurer must keep a copy of its capital & solvency return at its principal office for a period of five years beginning with its filing date and must produce such copies to CIMA if directed to do so.

During the review of the Class B insurer licensing application, there is a 25% probability CIMA will require one of the foreign directors to travel for a one-hour KYC meeting in Cayman Islands. As always, Healy Consultants Group PLC will aggressively negotiate to waive this requirement. However, the

Skype id healyconsultants

Email email@healyconsultants.com
Website www.healyconsultants.com

Cayman Islands Class 'B' Insurer's License Invoice

ultimate power of approving such waiver lies with CIMA. If our Client has to travel, we will implement this travel policy;

While preparing the license application of our Client, there is a 25% probability that Healy Consultants Group PLC will determine that i) some of the business activities of our Client are subject to other regulatory licensing requirements than Class B insurer licensing and / or ii) there is only a low probability of securing a Class B insurer license for our Client. If so, Healy Consultants Group PLC will immediately revert to our Client to suggest i) alternative licensing solutions and ii) alternative low cost low tax jurisdictions for Class B insurer businesses;

Applicants for Class 'B' insurer licensing must also employ at least 1 individual who is licensed as an **Insurance Manager**. The insurance managers play an essential role in the control and regulation of the captive insurance industry and CIMA maintains a close working relationship with them.

All insurers are subject to economic substance, this also applies to Class B(i), B(ii) and B(iii) insurer licensees. If the insurer is managed by an insurance manager (IM) and the IM is conducting core generating activities in the Cayman Islands (accounting, preparing and submitting regulatory filings, issuance of insurance policies etc.), economic substance requirements will be satisfied.

There is a 30% probability CIMA will not welcome a formal license application from our Client or later rejects the quality complete application submitted by Healy Consultants Group PLC. In the unfortunate event this occurs, our team will immediately advise our Client of alternative strategies including i) securing another license type with CIMA or ii) securing a regulatory license from alternative jurisdictions like Mauritius, Labuan, Hong Kong or Seychelles;

5. In accordance with <u>Cayman Islands' Insurance Law, 2010</u>, any person carrying on insurance business in or from within the Cayman Islands, including local companies (companies that are predominantly owned by Caymanians and which carry on business mainly within the domestic economy), exempted companies (companies that are predominantly owned by non-Caymanians and which carry on business from the Cayman Islands but not within the domestic economy unless licensed to do so) and ordinary resident companies. All persons carrying on business in or from within the Cayman Islands as an insurance agent, broker or manager are required to be registered under the Law.

There are four main categories of insurance licences i) Class A ('domestic') insurers, ii) Class B ('captives'); iii) Class C ('cat-bond' or 'special purpose insurers'), and iv) Class D ('reinsurers').

Class B captives are divided into three sub-categories:

- <u>Class B(i) insurers</u> carry on non-domestic insurance business in respect of which at least 95% of net written premiums will originate from the insurer's related business;
- b. For class B(ii) insurers, the threshold is set at over 50%.
- c. For <u>class B(iii) insurers</u>, 50% or less of the net written premiums will originate from related business.

A class B insurer may carry on domestic business if such business forms less than 5% of net written premiums or where CIMA has otherwise granted prior approval.

CIMA application and renewal fees are as following:

Cayman Islands Class 'B' Insurer's License Invoice

Class of Insurance	Application Fees (US\$)	Renewal Fees (US\$)
Class B(i) Insurers License	10,365.85	10,365.85
Class B(ii) Insurers License	11,585.37	11,585.37
Class B(iii) Insurers License	12,804.88	12,804.88

All licensees under the Insurance Law are required to pay an annual licence fee to CIMA on or before 15 January of each year.

The fee mentioned is applicable to Class B(i) Insurers License applicants. Incase of Class B(ii) or Class B(iii) Insurer applicants the government fee will be adjusted accordingly. All Government fees exceeding our estimate are borne by our Client;

- 6. Healy Consultants Group PLC will be pleased to open an international corporate bank account, without our Client needing to travel. To secure corporate bank account approvals for our Client's company, Healy Consultants Group PLC strategy is as follows:
 - ✓ Healy Consultants Group PLC will prepare a quality business plan for our Client's review then use the same to i) secure multiple banks' confirmation they welcome a formal application from our Client's business and ii) maximize the probability of successful multi-currency corporate bank account approvals;
 - ✓ At the time of company incorporation, we recommend to keep the corporate structure simple (click link) by appointing our Client's preferred individual shareholder(s) and director(s) and bank signatories no corporate entity, nominee, trust, or tax haven holding company;
 - Our Client to appoint individuals who could timely travel to meet multiple local and international banks, if their Compliance Departments require the same before releasing multiple multi-currency corporate bank accounts numbers. If travel is required, our Firm will refund US\$950 and action this travel policy;
 - ✓ Before, during and after bank meetings, the bank's In-house Legal and Compliance Department may revert multiple times for additional documentation and information from each i) bank signatory / director / UBOs of the companies as well as ii) our Client's business and transactions;
 - ✓ If some banks decline to board our Client's business, Healy Consultants Group PLC will immediately inform our Client and action backup banking solutions;
 - ✓ All going well in an average of 3 months following application submission, Healy Consultants Group PLC secures multiple multi-currency corporate bank account numbers for our Client's company;

Skype id healyconsultants

Email email@healyconsultants.com
Website www.healyconsultants.com

Cayman Islands Class 'B' Insurer's License Invoice

- ✓ Thereafter, Healy Consultants Group PLC or the banks will courier mails and e-banking tokens to the bank signatory, who is expected to activate the internet bank account, if needed with Healy Consultants Group PLC's assistance;
- ✓ After corporate bank account numbers are secured and if required, Healy Consultants Group PLC to assist our Client to appoint more new shareholders and directors. However, the banks will usually only approve them as bank signatory after a face to face meeting and review and approval of a bank signatory application;

Each corporate bank account opening fee is <u>US\$7,950 (click link)</u>. It is a time-consuming task; Healy Consultants Group PLC will shelter our Client from the administrative challenges. As you can appreciate, it is a difficult task to obtain bank account approval through newly formed companies when shareholders, directors and bank signatories reside overseas;

Depending on the nationality of the UBO, shareholders, bank signatories, and directors and the nature and value of the business assets and transactions, it is wise to expect that i) corporate bank account approvals will take an average of three months from the date of company registration and receipt of all KYC documentation and ii) multiple banks will request the directors AND bank signatories to travel for a one hour interview with the bank officer, before bank account opening. Refer to the notes below for more detailed important information about each corporate bank account opening procedures and requirements;

While Healy Consultants Group PLC will be glad to assist our Client to open multiple corporate bank accounts, it is challenging and time consuming to open corporate bank accounts for businesses when their shareholders, directors and bank signatories do not live in the country where the bank account is being applied for. Consequently, it will take us an average of twelve weeks to open each corporate bank account, counting from receipt of all required KYC documentation;

During the corporate bank account opening process, it is common for each bank's in-house Legal and Compliance Department to request additional <u>due diligence</u> documents from potential customers including but not limited to i) regulatory licenses ii) proof of business globally and in home country including evidence of contracts, invoices and agreements with local Clients and iii) additional KYC information on our Client's business and place of residency, including nature and volume of transactions. Our Client to timely revert with this documentation and information;

Because global interest rates are low, international banks make little profits from current accounts. Consequently, international banks appetite for new multi-currency corporate bank account opening applications is low. Consequently, global banks are more likely to reject new multi-currency corporate bank account opening applications. Because of the above, customer demand for new corporate bank accounts is very high. Consequently, international banks choose vanilla customers that tick all the boxes of a low risk Client. For example, most banks will only welcome multi-currency corporate bank account opening applications from a company registered in the same country, with local staff and office premises;

When dealing with international banks, the front office bank officer (Relationship Manager) is willing to help Healy Consultants Group PLC and our multi-national Clients. The realistic role of this bank officer is to collect information and ensure an accurate and complete multi-currency corporate bank account opening application is submitted to the bank in-house Legal and Compliance Department;

Unfortunately, the bank in-house Legal and Compliance Department has ultimate power of approval over new multi-currency corporate bank account applications. This Department is extremely risk

Skype id healyconsultants

Email email@healyconsultants.com
Website www.healyconsultants.com

Cayman Islands Class 'B' Insurer's License Invoice

adverse and often lacks commercial reality. Furthermore, the in-house Legal and Compliance Department does not speak to customers nor to Healy Consultants Group PLC. All communications must go through the front office bank officer. Consequently, quality Clients do not get a chance to communicate directly with the bank decision makers – a chance to properly explain their business and the risks the bank perceives;

Global banks enjoy ultimate power of approval of corporate bank account applications. Consequently, guaranteed success is outside of Healy Consultants Group PLC control. What is inside our control is the preparation and submission of a high quality bank application that maximizes the likelihood of approval;

Global banks <u>continue to tighten</u> corporate bank account opening procedures, their internal compliance departments completing more thorough due diligence of Clients. Consequently, our Client should expect the bank account approval period at least 2 months and on average 3 months;

During the engagement, banks will revert to Healy Consultants Group PLC and our Client to request additional KYC information, including i) details of existing business setup; ii) reason for opening bank accounts in the specific jurisdiction; iii) list of suppliers and Clients in the jurisdiction; iv) lease agreement; and v) proof of net worth from the shareholders and evidence the same are complying with their local taxation reporting obligations. As always, Healy Consultants Group PLC will liaise with the bank to secure exemption from these requirements;

While Healy Consultants Group PLC will try its best to negotiate with the bank for a travel exemption unfortunately most international banks will likely request both the foreign directors and bank signatories to travel, for a one-hour interview before the bank account numbers are issued. No exceptions; If the banks also request Healy Consultants Group PLC nominees to travel, there will be an additional fee of US\$5,950 per trip payable to cover the flight and hotel and other trip disbursements.

All banking charges, certification and translation and other third-party fees incurred during the corporate bank account opening process are to be borne by our Client, never by the nominees. These additional fees are to be payable in advance of any disbursement;

Healy Consultants Group PLC will supply the banks with the proof of addresses and other due diligence supplied by our Client. Hopefully they will accept the same and do not revert requesting additional documents; From our side we will relentlessly negotiate for banks waivers. Healy Consultants Group PLC expects the bank's risk department to request additional <u>due diligence</u> from our Client's business and from the bank signatory, directors, shareholders and UBOs. We assume our Client will timely supply this information and supporting documents or there will be engagement delays;

- 7. During the review of the Class B Insurer's License Application, CIMA will verify that i) all directors have work experience and education commensurate with the expected trading activities and volume of the business; ii) an Insurance manager, resident in Cayman Islands and active in the management of the business, iii) at the insurance manager's place of business or at another location approved by the CIMA, full and proper records of the business activities of the insurer;
